ULTRA

Based on our long time proven BlastSafe "Source" protection suit. We have refined the design and functionality into a new high-end technical safety suit created for Blasterheroes. With recoil absorbing inlays, rigid fabrics, high comfort sport cuffs and breathing back panels.

«ULTRA» is tested and CE approved according to:

ISO EN 14877 Protective clothing for abrasive blasting operations using granular abrasives.

The suit is extremely strong and durable, and is manufactured from the flame resistant material «Blastex™».

This is the suit of the future!

Detachable hood
